

Code lock key tube

Please read this manual carefully before using your new code lock.

De Raat
Security Products

Safes, lockers and more...

Opening the lock for the first time

The lock has a pre-set code, set on **0 0 0 0**.

Enter this code and turn the lock to the right (clockwise).

Pull the lock towards you and take out the lock of the key tube. You can place the desired key in the tube and lock the lock.

Changing the code

1. Enter the code (pre-set code is **0 0 0 0**).
2. Turn the lock to the right (clockwise) and pull the lock towards you. Take out the lock.
3. Turn the adjusting screw on the left side of the lock to the right (clockwise).
4. Enter the new code.
5. Turn the adjusting screw to the left (counter clockwise).
6. Your new code has now been set.
7. Place back and close the lock.
